A PERFECT FIXING for
YOUR BUSINESS

At **INDEX®**, we are manufacturers and industrial suppliers of fixing systems, offering global solutions adapted to your business needs.

BUT WE ARE MUCH MORE THAN THAT. WE ARE A LARGE TEAM ENGAGED IN CONTINUOUS RESEARCH, DEVELOPMENT AND INNOVATION, AND, LET'S FACE IT, WE'RE MORE THAN A LITTLE OBSESSED WITH ACHIEVING OUR GOAL: TO PROVIDE THE PERFECT FIXING.

Whatever the size of your business, at **INDEX®**, we will find the perfect fixing for your needs.

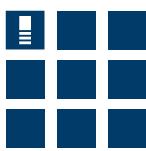

WHY IS INDEX® A PERFECT FIXING FOR YOUR BUSINESS?

At INDEX®, we believe that nothing is impossible when it comes to striving for perfection. Therefore, we continuously invest in new products, approvals, production processes, and technological resources to meet all the demands of the market.

These are just some of the reasons why
INDEX® STANDS OUT

AVAILABILITY AND WIDE PRODUCT RANGE

Over 10,000 products permanently in stock (guaranteed).

WE WORK WITH THE CHANNEL

We sell through the distribution channel, enabling us to gain first-hand market knowledge.

WE ARE EXPERT MANUFACTURERS

Over 30 years of experience in manufacturing fixing systems enables us to ensure the maximum quality of all our products, the best service, and competitive overall costs.

CERTIFIED QUALITY

We hold the most important certificates and approvals, verifying that all of our products meet the highest quality standards.

INTERNATIONAL PRESENCE

We are a global company with sales in more than 90 countries on the five continents and facilities in Spain, China and Mexico.

ENGINEERING AND TECHNICAL SUPPORT SERVICES

We support our customers with structural design and calculations, joint site visits, and technical training on topics related to fixing systems.

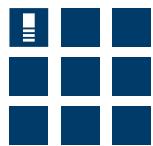

QUALITY CUSTOMER SERVICE

Our customers are at the heart of everything we do. We have a team of over 300 people at your service.

INDEX SPACE ESTUDIO

We have the perfect display solution for all our customers, whatever their business.

AVAILABILITY AND WIDE PRODUCT RANGE

We are specialists in anchors, screws, clamps, and installation systems. We have the widest range of products, with over 10,000 items permanently in stock (guaranteed) at our facilities in Spain, China, and Mexico (over 45,000 m²).

**WE HAVE ALL THE
FIXINGS YOU COULD
POSSIBLY NEED AND
WE ARE CONSTANTLY
INCORPORATING NEW
PRODUCTS: anchors,
screws, clamps,
installation systems,
etc.**

WE ARE EXPERT MANUFACTURERS

Our control over the entire production process combined with over 35 years of experience in manufacturing fixing systems enables us to ensure the maximum quality of all our products, the best service, and competitive overall costs.

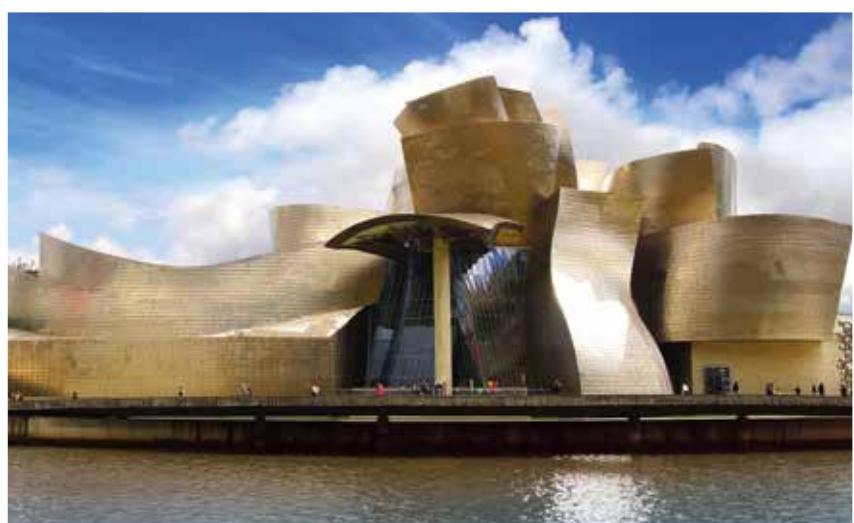

**OVER 35 YEARS OF
EXPERIENCE**

INTERNATIONAL PRESENCE

We sell in more than 90 countries on the five continents, and our products have been used in the largest construction projects worldwide.

QUALITY CUSTOMER SERVICE

To guarantee the perfect fixing, we have a team of over 300 people at your service and 45,000 m² facilities with a 22,000 pallet capacity, guaranteeing a delivery time of 24-48 hours and a fast response to any queries you may have.

**OVER 300 PEOPLE AT
YOUR SERVICE**

WE WORK WITH THE CHANNEL

At INDEX®, we sell through the distribution channel, enabling us to interact directly with our customers. We operate in the most important channels, offering product ranges adapted to each channel and highly qualified professionals to provide you with the best service.

CERTIFIED QUALITY

Our obsession with perfection drives us to continually expand our certifications and approvals from independent laboratories and the primary authorities, ensuring the maximum quality of our products and management systems.

WIDE RANGE OF TECHNICAL DOCUMENTATION AVAILABLE

SOFTWARE SERVICES AVAILABLE (CYPE, CAD)

INDEX SPACE STUDIO

INDEX Space Studio is the INDEX® customised display design and installation service for customers.

This service is unique to the market and 100% customisable according to the specific needs of each customer (e.g., product, packaging format, rotation, and/or business type), aiming to maximise the sales space.

ADVANTAGES AND CHARACTERISTICS

- **CUSTOMISABLE.** Installation service adapted to the needs of each business.
- **100% OPTIMISED INSTALLATIONS.** The system is designed to maximise the available space at the point of sale.
- **MULTIPLE SOLUTIONS.** We offer a wide range of display solutions. Gondola, wall, end cap, island, promotional, etc.
- **QUALITY AND SAFETY.** We work with high-quality furniture that guarantees the maximum safety and robustness of all components.
- **VERSATILITY.** The system is compatible with all **INDEX®** products and packaging.
- **WE OPTIMISE THE RESTOCKING PROCESS.** Aware of the importance of facilitating the restocking and maintenance of shelves, our furniture and packaging guarantee the most ergonomic and practical set-up.
- **MAXIMUM PRODUCT VISIBILITY.** Designed to improve the end customer's purchasing decisions. We offer multiple visual merchandising solutions that complement and improve the installation.

HOW DOES IT WORK?

INDEX SPACE STUDIO
has 6 easy steps:

1. ANALYSIS

The **INDEX®** sales team works with the customer to analyse their needs (e.g., available space, products to be incorporated, type of packaging, etc.)

2. DESIGN

With the information obtained, the specialised installation team organises and optimises the product selection.

3. PRESENTATION

The proposed installation solution is presented with a 3D simulation of the shelving and the planogram, showing the arrangement of the product selection.

4. PREPARATION AND SHIPPING

To facilitate display assembly, new installation shipments are prepared separately from other usual orders.

5. ASSEMBLY

The **INDEX®** specialised assembly team carries out the entire initial assembly. Installation of the furniture, location of the product, and installation of merchandising elements.

6. MAINTENANCE AND MONITORING

We ensure regular inspections of each shelf installation, proposing possible improvements, maintaining it in optimal and updated conditions, and facilitating restocking.

TYPES OF SHELVES

GONDOLA

SLOPING SHELVES

Improves the display of all products. Recommended for window box and INDEXmix display formats.

BULK DRAWERS

Available in metal and recycled plastic. Ideal for the presentation of bulk products.

HOOKS

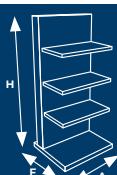

Available in 30, 40 and 50 cm. Recommended for displaying blister packs and EASYkits products.

STRAIGHT SHELVES

Suitable for the presentation of heavy products such as professional boxes and containers. Combined with separators, it is perfect for chemicals, silicones, and polyurethane foams.

PROMOTIONAL DISPLAYS AND OTHERS

SIZES AVAILABLE IN STOCK for gondola/wall, end cap, and island displays:
• **W:** 100 cm.
• **H:** 165, 195 and 240 cm.

ISLAND

Possible combinations.
Measurements per unit:
100 x 50 x 150 cm (W x D x H)

3 units
100 x 150 x 150 cm

4 units
100 x 200 x 150 cm

6 units
100 x 300 x 150 cm

8 units
100 x 400 x 150 cm

Other sizes available **upon request**.

(Delivery time of 4 weeks):

- **W:** 50, 70, 85 and 130 cm.
- **H:** 135, 150, 225 and 255 cm.
- **D:** 50 cm.

TYPES OF PACKAGING

Aware of varying quantity and packaging needs, INDEX® has developed different alternatives to meet the specific needs of each user.

All our packaging is made from recyclable, 100% sustainable, and environmentally friendly materials.

We facilitate the identification and selection of products with our colour-coded labelling system.

PROFESSIONAL BOX

Designed with highly resistant recycled cardboard to withstand the most demanding jobs.

BOX WITH WINDOW

Visual and appealing. Recommended for automatic sales shelves.

BLISTER PACKS & EASYkits

The best solution for customers in need of small quantities.

PLASTIC CONTAINERS

These are the perfect solution for large installers. They facilitate on-site handling and have an appealing design.

SELF SERVICE BAGS

Ready to be placed on the shelf. Intermediate quantities between professional boxes and blister packs.

BULK

Available for anchors, screws, clamps, and cable ties. A good solution for installations with automatic sales spaces.

VISUAL MERCHANDISING

At INDEX we offer our distributors a wide range of aids to promote and communicate our products at the point of sale, such as sets of shelves, posters, totems, stickers, and much more!

PROTECTION AGAINST CORROSION

CORROSION CATEGORIES

CORROSION CATEGORIES	CORROSION LEVEL	TYPICAL ENVIRONMENTS: EXAMPLES OF ISO9223		INDEX® COATINGS AVAILABLE
		INDOOR	OUTDOOR	
C1	VERY LOW	Heated spaces with low relative humidity and insignificant contamination, such as offices, schools, museums.	Dry or cold areas, atmospheric environment with very low contamination and little humid weather, such as certain deserts, central Arctic or Antarctic.	ZINC-PLATED ZINC-PLATED BLACK ZINC-PLATED WHITE PHOSPHATED COATED PLASTIC COATED
C2	LOW	Unheated spaces with variable temperature and relative humidity. Low condensation frequency and low contamination, such as storage, sports pavilions.	Temperate areas, atmospheric environment with low contamination ($SO_2 < 5 \mu g/m^3$), such as rural areas and small cities. Dry or cold areas, atmospheric environment with little humid weather, such as deserts and sub-Arctic areas.	ATLANTIS C2-H ATLANTIS C2-M ATLANTIS C2-L YELLOW ZINC PLATED BLUE ORGANIC GALVANISED
C3	MEDIUM	Spaces with moderate condensation frequency and moderate contamination from a production process, such as food processing plants, laundries, breweries, dairies.	Temperate areas, atmospheric environment with medium contamination ($SO_2: 5\mu g/m^3$ to $30\mu g/m^3$) or some chloride effects, such as urban areas, coastal areas with low chloride deposition. Tropical and subtropical area, atmosphere with low contamination.	ATLANTIS C3-H ATLANTIS C3-M ATLANTIS C3-L INOX AISI 430
C4	HIGH	Spaces with high condensation frequency and high contamination from a production process, such as industrial processing plants.	Temperate areas, atmospheric environment with high contamination ($SO_2: 30 \mu g/m^3$ a $90 \mu g/m^3$) or substantial chlorides effects, such as contaminated urban areas, industrial areas, coastal areas without salt water spray (1-10 km), or exposure to strong salinity effects. Tropical and subtropical areas, atmosphere with medium contamination.	ATLANTIS C4-M A2 INOX STAINLESS A2 (AISI 304)
C5	VERY HIGH	Spaces with a very high frequency of condensation and/or high contamination from a production process, such as mines, industrial vaults, unventilated spaces in tropical and subtropical areas.	Temperate and subtropical areas, atmospheric environment with very high contamination ($SO_2: 90 \mu g/m^3$ to $250 \mu g/m^3$) and/or significant chloride effects, such as industrial areas, coastal areas (0-1 km), protected installations on the coast.	A4 INOX STAINLESS A4 (AISI 316)

QUICK SELECTION GUIDE

		CORROSION CATEGORIES				
		C1	C2	C3	C4	C5
ENVIRONMENTAL AND/OR ATMOSPHERIC CONDITIONS	INDOOR WITHOUT CONDENSATION	✓				
	INDOOR WITH TEMPORARY CONDENSATION		✓			
	OUTDOOR IN RURAL AREAS WITH VERY LOW CONTAMINATION		✓			
	OUTDOOR WITH LOW CONTAMINATION			✓		
	OUTDOOR WITH MODERATE CONCENTRATION OF CONTAMINATION				✓	
	COASTAL AREAS					✓
	OUTDOOR WITH STRONG INDUSTRIAL CONTAMINATION					✓
	AREAS CLOSE TO ROADS					✓

* The selection indicated in the table is for expected exposures of 25 years, providing proper maintenance.

* In the case of installations with approved products, the use in these environments is not covered by European Technical Approval (ETA) of anchors, where it is established that only stainless steel anchors may be installed outdoors and assuming a working life of the anchor of at least 50 years.

APPLICATION EXAMPLES

PLASTIC CLAMPS

Nylon® cable ties and their accessories are some of the most highly demanded products in the professional installation world. They are suitable for all types of applications, such as electrical installations, landscaping, industrial cabling, construction, DIY, production lines and photovoltaic installations. The INDEX cable tie range is made up of a wide variety of colours and sizes, detectable cable ties and various accessories. We have UNE-EN 62275 certification (CE mark) and UL approval.

QUALITIES AND ADVANTAGES

FAST AND SIMPLE INSTALLATION

The ergonomic design of the flexible tape makes for smooth and easy threading.

HIGH PERFORMANCE

The design of the head ensures high resistance to traction, guaranteeing strong tensioning. Up to 122.3 kg* of breaking load under EN 50146

INNER GEAR RACK

The design of the inner gear rack ensures an optimal tightening of the cable tie without damaging the object being secured.

*For cable ties that are 12 mm wide.

MAXIMUM QUALITY AND GUARANTEES

The quality of INDEX cable ties is guaranteed with the highest quality standards, thanks to their certification under the UNE-EN 62275 standard, which has UL approval and allows for CE marking.

APPLICATIONS

- Wiring in general: Electrical wiring, hose clamping, cable hose bundling
- Solar Plants
- Automotive and Aeronautics
- Product Packaging
- Children's parks
- Pharmaceutical and Food Industry
- DIY and Gardening
- Arts and Crafts
- Facilities with HACCP/APPPC requirements (disposable cable ties)

RANGE

BLACK AND WHITE CABLE TIES

The black and white Nylon® cable ties with inner gear rack are very versatile, and can be used for numerous applications in multiple industries. They are available in a wide variety of sizes, enabling an optimal fastening of any element, such as cable harnesses, pipes and/or hoses.

The black cable ties, manufactured from polyamide with a black additive, provide greater resistance to ultraviolet radiation, making them suitable for outdoor applications. The white cable ties (natural) are suitable for indoor applications.

They are ideally suited for use in installations requiring high resistance to alkalis, oils, greases, oil by-products or chlorinated solvents. However, they offer limited resistance to acids and no resistance to phenols.

COLOURED CABLE TIES

The coloured cable ties are suitable for wiring in connection boxes where different bundles of cables are grouped, allowing them to be identified quickly and easily and making it possible to visually organize the work space. They are also used in those applications where cable ties need to go unnoticed (fencing).

Available in a wide range of sizes in **brown, yellow, blue, red, green and grey**.

DETECTABLE CABLE TIES

Detectable cable ties are especially designed for use in the food, cosmetics and pharmaceutical industries, and in any others with applications that must **comply with the requirements of the HACCP* methodology** (Hazard Analysis and Critical Control Points).

Manufactured in 6.6 Polyamide with metal particles, their **magnetic properties allow them to be detected by a metal detector** or X-ray inspection equipment. And their unique blue colour makes them easy to detect visually.

PACKAGING AND POINT OF SALE

The bag the cable ties are sold in contains all the necessary information in a single glance.

Printed on the label are the dimensions of the cable tie, the usage temperature, the maximum and minimum diameter size, the breaking load, code and EAN. It is a high quality plastic bag that ensures watertightness to maintain the recommended humidity level.

There are three shelving display options for cable ties:

RECOMMENDATIONS ON THE USE AND STORAGE OF THE CABLE TIES

INDEX cable ties are manufactured in high quality polyamide, a hygroscopic plastic material, which means that the material absorbs and loses water depending on the external conditions (humidity and temperature). To guarantee correct handling and optimal conservation of the polyamide, the bags of cable ties contain the proper level of humidity.

We recommend the following to ensure correct product behaviour:

Do not open the bag until using them, and once open use them as soon as possible or store them in hermetic plastic bags.

Do not store near heat sources.

Optimal storage conditions: 23°C temperature and 50% relative humidity.

Do not expose to direct sunlight.

PLASTIC FIXINGS AND FOR HOLLOW MATERIALS

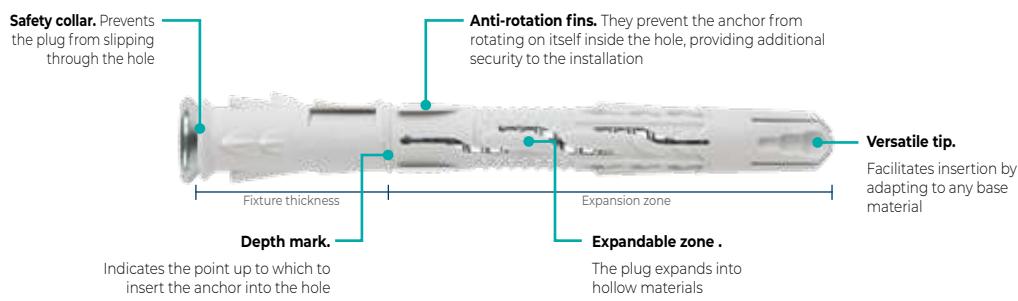

T-NUX

High-performance universal nylon plugs for use in concrete and masonry are a versatile and professional solution. They allow installation with the highest security guarantees thanks to the fact that they have ETE approval and fire resistance.

Their design allows the plug to adapt to any type of base material, whether solid or hollow. Also, it allows the load to be spread throughout the entire plug, thanks to a controlled expansion at different points of the material where it is installed.

DESIGN AND GEOMETRY

QUALITIES AND ADVANTAGES

MAXIMUM VERSATILITY. MULTI-MATERIAL.

Their design allows the plug to adapt to any type of base material, whether solid or hollow. Particularly suitable for when the base material where the fixation is made is unknown.

MAXIMUM GUARANTEES. PRODUCTS APPROVED ACCORDING TO THE HIGHEST QUALITY STANDARDS.

- Approved (ETA14/0467) for non-structural uses in concrete, aerated concrete, solid brick, hollow brick and concrete block (in sizes Ø8 and Ø10)
- Approved for fire resistance R30-R120 in concrete

*The anchor is approved when the plug and the screw are used together, not separately. Using approved anchors provides safety and quality to the anchor, meeting the highest quality standards.

QUALITY PRODUCT

The T-NUX anchor is made up of two top quality elements, a Polyamide 6 nylon plug and a screw (see different alternatives in the range. The loose plug is also available).

MAXIMUM PERFORMANCE

The geometry of the plug means that when inserting the screw, the plug expands in a uniform way and provides a high-performance fixing of up to 202 Kg per anchor (see technical data sheet).

100% INDEX MANUFACTURED

This allows us to ensure a rigorous control of processes, guarantee the highest quality in our products, provide the best service and obtain a competitive global cost.

TN4S

The INDEX TN4S expansion plugs offer maximum performance thanks to their 4-way expansion. They stand out for their versatility in installation, being suitable for application both in solid materials (concrete, solid brick), and in hollow materials (hollow brick, hollow concrete blocks, plasterboard). They can support loads of more than 600 kg per support point. The are manufactured with high-quality Nylon® (polyamide 6).

QUALITIES AND ADVANTAGES

MAXIMUM PERFORMANCE

It expands in 4 directions, guaranteeing perfect adherence to the base material. In hollow materials, when the screw/lag screw is inserted, the plug expands by retracting and pressing on the base material and providing a correct grip.

MULTI-MATERIAL

Recommended for both solid (concrete, stone, solid brick, adobe brick, cellular concrete), and hollow base materials (hollow brick, hollow block, plasterboard, alveolar plates).

VERSATILITY

Recommended for use with a wide range of screws (chipboard screws, countersunk screws, coach screws...), as well as other types of products (hooks or eyes).

EASY TO USE

The collar prevents the plug from slipping into the base material during installation. The plug has several lateral anti-rotation fins that help prevent the plug from turning when inserting the screw/lag screw.

APPLICATIONS

- Fences
- Railings
- Supports
- Shelving
- Signs
- Sanitary and/or bathroom facilities
- Paintings
- Light elements
- Illumination
- Baseboards
- Mailboxes
- TV cabinets
- Wiring ducts
- Furniture

See video

Do you know for how long you can handle a chemical anchor once it has been applied?

A new formula to MO-PS+ makes the mortar change colour once the curing process begins, indicating that it can no longer be handled.

INDEXmor CLOUD

ONLINE SOFTWARE TO CALCULATE CHEMICAL MORTARS

The software makes it possible to calculate online how many cartridges will need to be used depending on the parameters entered, both in brick and in concrete (measuring rod and corrugated bar).

Parameters in Concrete:

- Selection of element to install (Measuring rod or corrugated bar).
- Number of holes to fill.
- Selection of metrics (M8 - M32).
- Depth of hole.
- Use of the cartridge (optimal, good, poor).

Benefits:

- Software 100% online.
- Ease of use. Responsive design.
- Multilingual: Available in Spanish, English, French, German and Portuguese.

Parameters in Brick:

- Number of holes to fill.
- Selection of metrics (M8 - M12).
- Possibility to include threaded sieve in the calculation.

Adhesives Hybrid MS Polymer

MS

CODE	SIZE	COLOR	€/PC	
MSPRB290	290 ml. (Blanco)	WHITE	10,477	12
MSPRG290	290 ml. (Gris)	GREY	10,477	12
MSPRM290	290 ml. (Marrón)	BROWN	10,477	12
MSPRN290	290 ml. (Negro)	BLACK	10,477	12

APPLICATIONS

- Affixing and sealing in construction: shelves, roof fixings, gutters, decks, frame joints or structures subjected to vibrations.
- Filling cracks.
- Sealing of expansion joints, cisterns, containers and other aluminium elements.
- Product certified for use in the food processing industry
- (ISEGA Certificate).
- Adhesion to all types of materials (concrete, wood, metal, cork, aluminium, PVC, copper, brick, stone, porcelain...). Not recommended for Polyethylene (PE), Polypropylene (PP) and Polytetrafluoroethylene (PTFE).
- If the base material is unknown, tests must be done beforehand to ensure the product functions correctly.

MS-PR

Adhesive MS Professional

ISEGA

MS-TR

Adhesive MS Transparent

CODE	SIZE	COLOR	€/PC	
MSTR290	290 ml. (Transparente)	TRANSPARENT	14,829	12

APPLICATIONS

- Colourless. Suitable for affixing glass, panes, acrylic, PVC, porcelain, ceramic and other transparent elements, outdoors or indoors.
- Attaching of materials with a transparent or visible join.
- Can be applied to damp surfaces.
- Adhesion to all types of materials (concrete, wood, metal, cork, aluminium, PVC, copper, brick, stone, porcelain...). Not recommended for Polyethylene (PE), Polypropylene (PP) and Polytetrafluoroethylene (PTFE).
- If the base material is unknown, tests must be done beforehand to ensure the product functions correctly.
- Suitable for assembling, sealing and affixing.

CODE	SIZE	COLOR	€/PC	
MSSF290	290 ml. (Blanco)	WHITE	12,571	12

APPLICATIONS

- Especially recommended for affixing and connecting heavy elements quickly and without additional fixings. Triples the holding capacity of other adhesives.
- Suitable for indoor and outdoor use. UVresistant.
- Adhesion to all types of materials (concrete, wood, metal, cork, aluminium, PVC, copper, brick, stone, porcelain...). Not recommended for Polyethylene (PE), Polypropylene (PP) and Polytetrafluoroethylene (PTFE).
- If the base material is unknown, tests must be done beforehand to ensure the product functions correctly.

Bits

PUPU

METAL

PU-OX

OXBIT

CHARACTERISTICS

Fits perfectly on the screw:

Guaranteeing that the screw is completely fixed to the bit, allowing for an ergonomic installation in any position and improving the screw guide.

Optimum transmission of force:

Ensuring the perfect fit in the mortise, increasing the tightening surface and optimising the tightening torque transmission.

Anti Cam-Out:

The OXBIT bits reduce the "Cam-Out" effect, which is especially high in machinery works and which can cause the bit to slide out of the screw mortises. This increases the useful life of the bits and the mortises.

Ideal for high performance applications:

Especially designed to guarantee transmission in works with high torque values as it withstands high speeds and the torque of impact drivers.

Less effort:

It increases transmission of the torque, allowing for installation with less effort, even with elevated torques.

Increases the bit's useful life:

Thanks to the design of the OXBIT bits and their perfect fitting with the mortises, it is possible to extend both the useful life of the bits and the mortises.

* Approximate weight values. Consult manufacturer for exact weights.

LOAD CALCULATION EXAMPLES

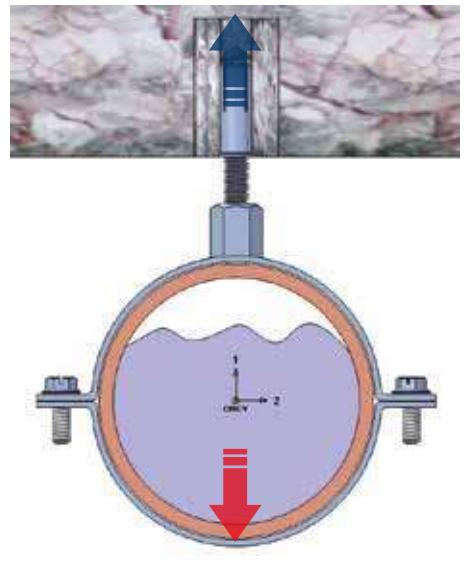

When designing pipe support systems, the basic aspects of the theory of strength of materials must be taken into consideration. To calculate the fixing of pipes in the system being designed, the weakest element has to be taken as a reference.

1. SUSPENSION ELEMENT

Fixing elements

Loads and resistances

RESISTANCE CALCULATION

Service loads		Components' recommended resistance
Pipe weight + Fluid weight	\leq	HE-NO DIN-975 AB-RI

Service loads

PVC pipe Ø 125 mm + fluid
(distance between supports: 1 metre)

$$= 12,76 \text{ kg/m}^*$$

Components' resistance

Element	Characteristic strength *	Safety coefficient *	Recommended resistance *
Drop in anchor HENOM8	8,30 N	CS steel failure 2,16 CS load increasing 1,4	279 kg
Threaded rod 975ZM8	15.400 N	CS steel failure 1,25 CS load increasing 1,4	897 kg
Pipe clamp ABRI125	-	-	200 kg

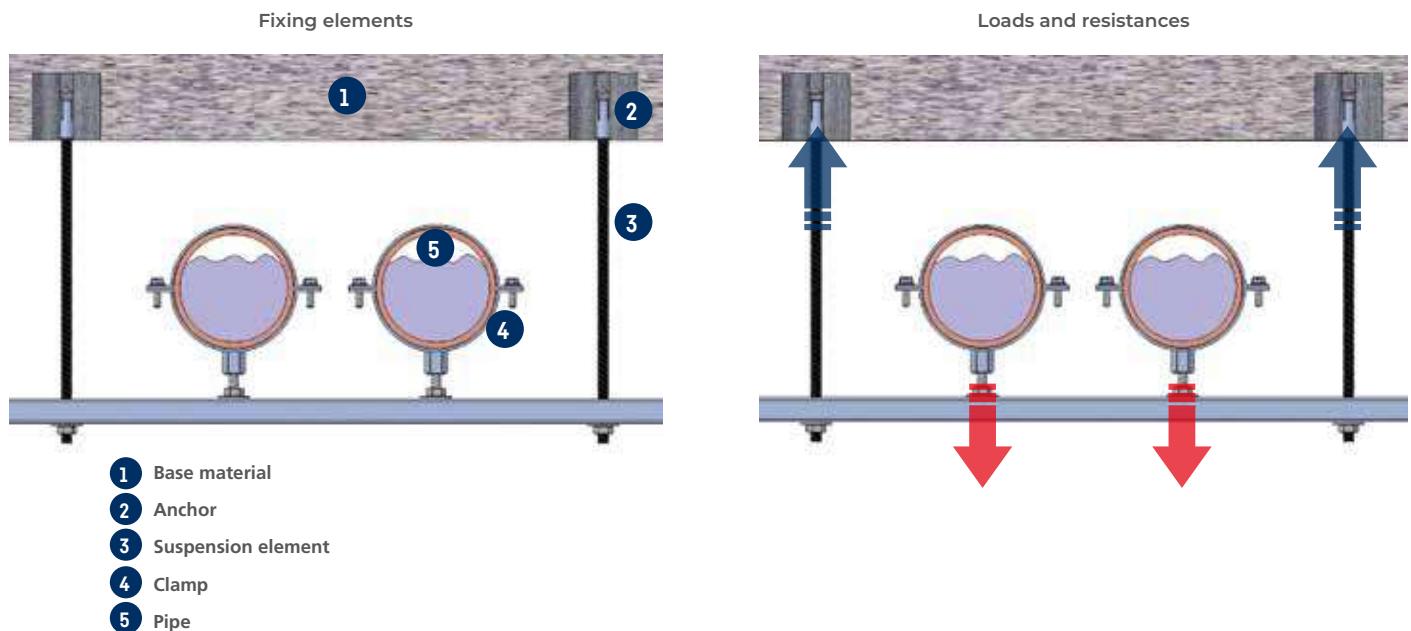

*Check data in technical sheets at indexfix.com and INDEX catalogue.

The weakest element is the pipe clamp ABRI125, with a recommended resistance of 200kg.

Service load \leq Recommended resistance
12.76 kg \leq 200 kg

Therefore, the support system for the pipe clamp is safe.

2. ELEMENT ON SUPPORT CHANNEL

RESISTANCE CALCULATION

Service loads		Components' recommended resistance
2 Pipe weight + Fluid weight	≤	2 HE-NO 2 DIN-975 2 AB-RI 1 GPG3840

Components' resistance

Service loads

2 PVC pipes Ø 125 mm + fluid
(distance between supports: 2 metres)
 $= 12,76 \text{ kg/m} \times 2 \times 2 = 51,04 \text{ kg}^*$

Element	Characteristic strength *	Safety coefficient *	Recommended resistance *	Units	Total recommended resistance *
Drop in anchor HENOM8	8,30 N	CS steel failure 2,16 CS load increasing 1,4	279 kg	2	558
Threaded rod 975ZM8	15.400 N	CS steel failure 1,25 CS load increasing 1,4	897 kg	2	1.794
Pipe clamp ABRI115	-	-	200 kg	2	400
Support channel GPG3840	See support system for details		260 kg	2	260

*Check data in technical sheets at indexfix.com and INDEX catalogue.

The weakest elements are the pipe clamp ABRI115, with a recommended resistance of 200 kg; and the support channel GPG3840, with a recommended resistance of 260 kg.

Service Load \leq Recommended Resistance

ABRI115: 25,52 kg \leq 200 kg
GPG3840: 51,04 kg \leq 260 kg

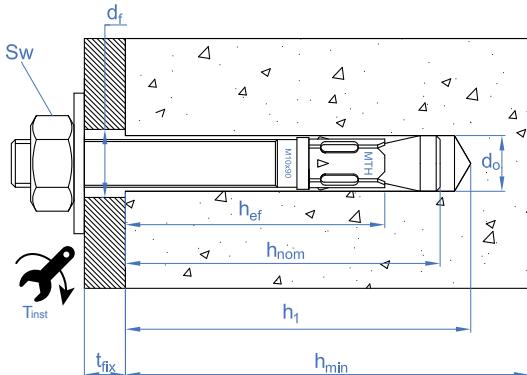

Therefore, the support system for the pipes is safe.

TECHNICAL INSTALLATION PARAMETERS

On the following pages, you will find a series of quick reference points that will help you to choose the right product for your installation. If you would like further information, please refer to our technical documentation, which is available at: www.indexfix.com

The first points are descriptive and help us to understand the geometry of the anchorage and its corresponding reference code. The next ones are product installation parameters, using mm as units of distance, kg for the maximum recommended loads and Nm for the tightening torque of the anchors.

The majority of the products come with a dimensioned sketch, and the meaning of these levels for the anchors are described below:

d_o	bit or drill diameter [mm]
h₁	minimum drill or hole depth [mm]
h_{min}	minimum base material thickness [mm]
d_f	diameter of hole in the fixture [mm]
h_{nom}	anchor installation depth [mm]
t_{fix}	maximum fixture thickness [mm]
t_{inst}	tightening torque required for the correct anchor expansion [Nm]
C_{cr}	critical edge distance [mm]
S_c	critical distance between anchors [mm]
h_{ef}	effective anchor depth [mm]
SW	installation wrench or distance between the nut faces [mm]

EXTRACTION

Maximum recommended tensile load that the anchor can resist. This has been calculated by applying a safety factor of 1.4 to the anchor's resistance of calculation and it is expressed in kg. This factor is applicable for cracked and non-cracked concrete. The safety factor for other materials can reach 2.5.

SHEARING

Maximum recommended shear load that the anchor can resist. This has been calculated by applying a safety factor of 1.4 to the anchor's resistance of calculation and it is expressed in kg. This factor is applicable for cracked and non-cracked concrete. The safety factor for other materials can reach 2.5.

ADMISIBLE RESISTANCES AND LOADS FOR SUPPORT CHANNELS

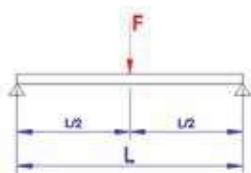

*Values calculated without surpassing admissible tension $\sigma_{adm} = 16 \text{ N/mm}^2$ nor a maximum arrow of $L/200$.
For cases not included in these calculations, consult with INDEX Fixing Systems' Technical Department.

CALCULATION EXAMPLE

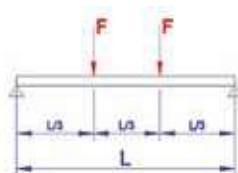

Slotted channel GPG3840 with length between supports (L) of 500 mm., with 2 centered punctual loads (case 2)

CASE 1

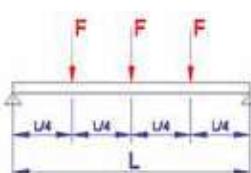

Punctual load in the centre

CASE 2

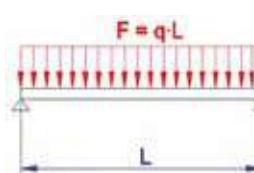

Two punctual loads in $L/3$

CASE 3

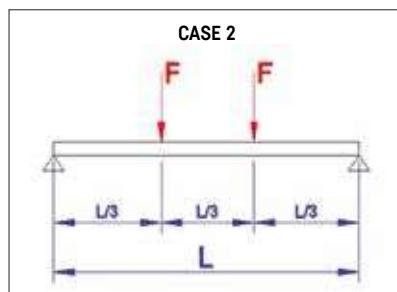

Three punctual loads in $L/4$

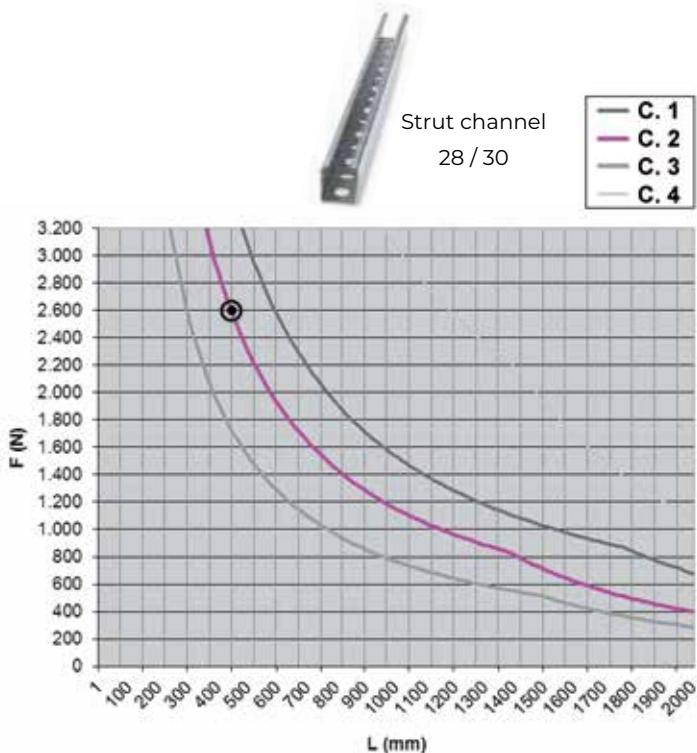

CASE 4

Uniform load

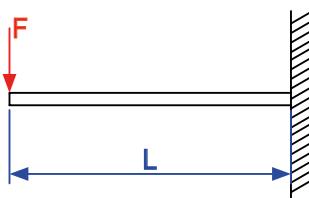

For the L=500 value and for the support system GPG3840, we get a resistance value of 2600 N $\approx 260 \text{ kg}$

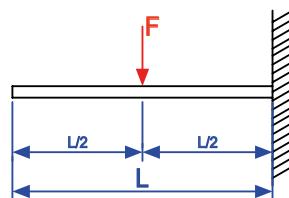

CHANNEL CANTILEVER ARMS

CASE 1

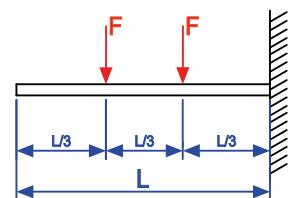

Punctual load in the edge

CASE 2

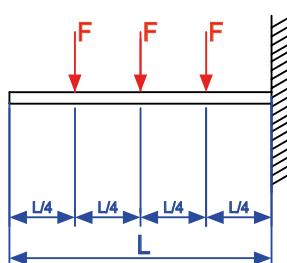

Punctual load in the centre

CASE 3

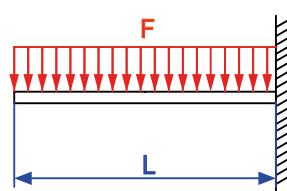

Two punctual loads in $L/3$

CASE 4

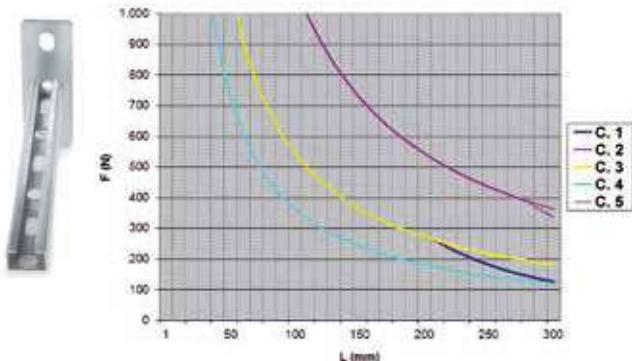

Three punctual loads in $L/4$

CASE 5

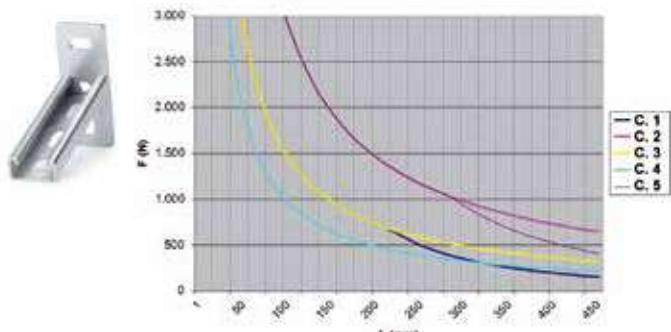

Uniform load

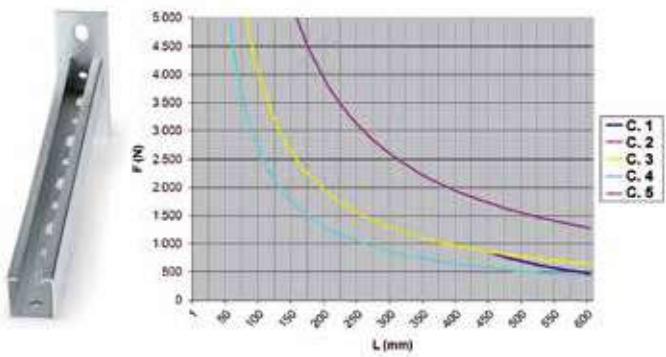

Channel cantilever arm 27 / 18

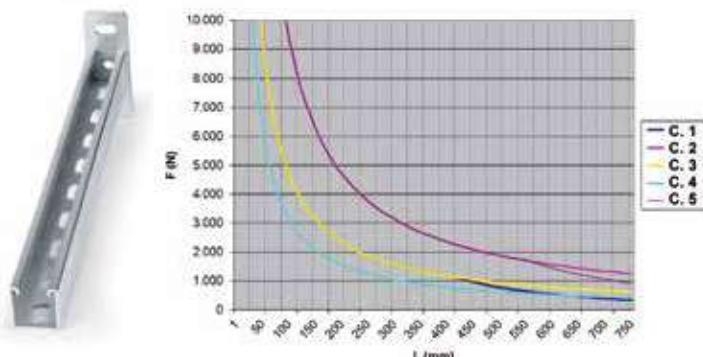

Channel cantilever arm 41 / 21

Channel cantilever arm 38 / 40

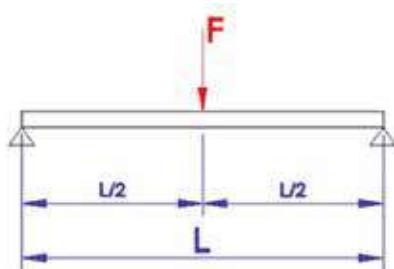

Channel cantilever arm 41 / 41

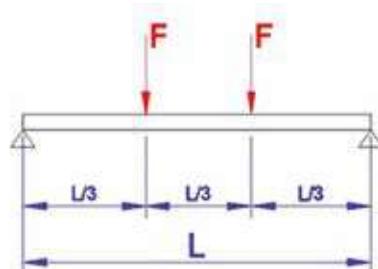

STRU'D CHANNELS

CASE 1

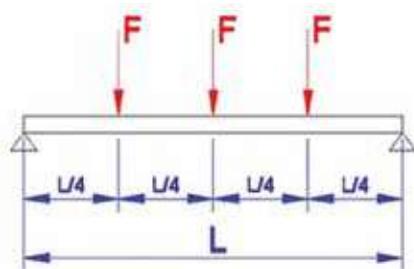

Punctual load in the centre

CASE 2

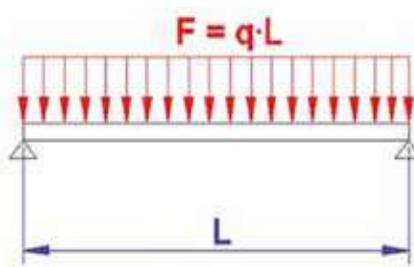

Two punctual loads in L/3

CASE 3

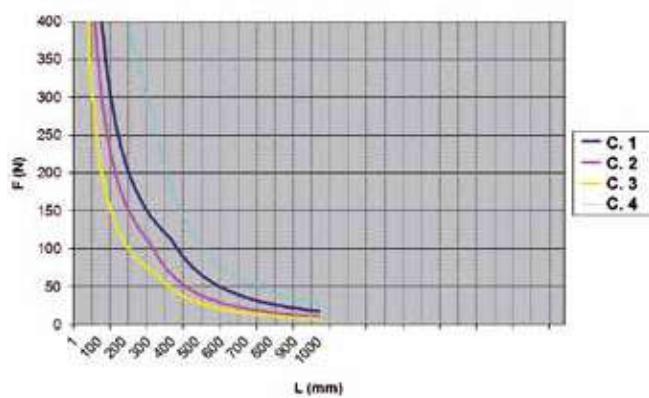

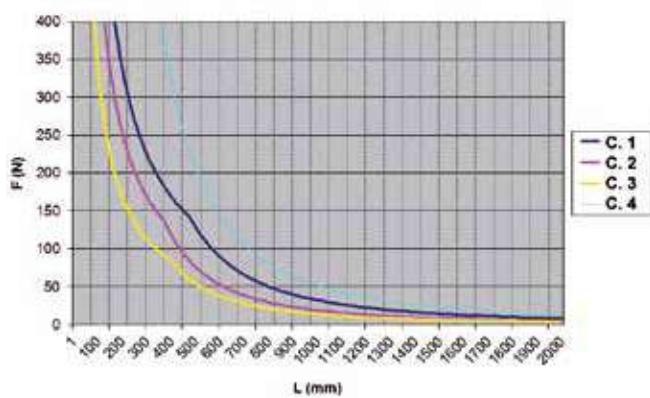

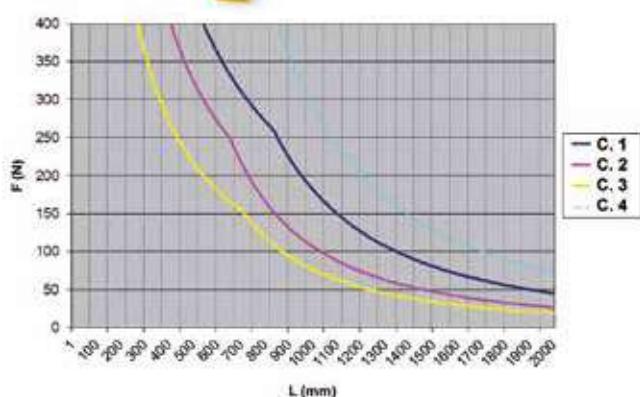

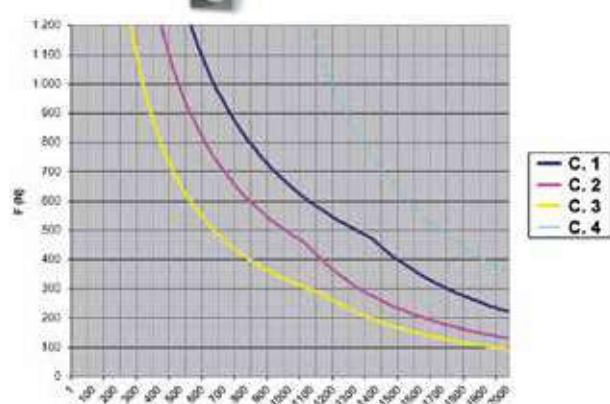

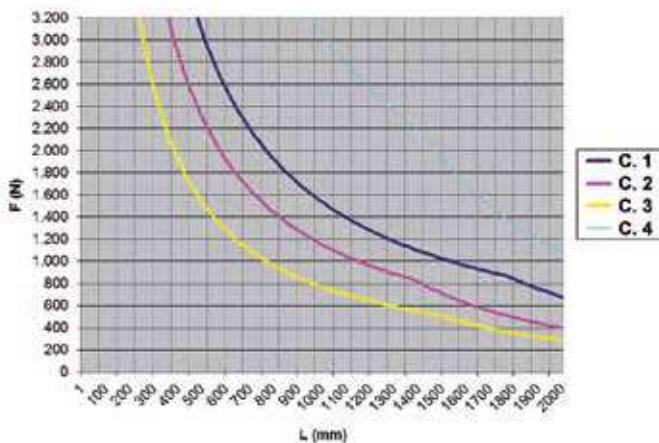

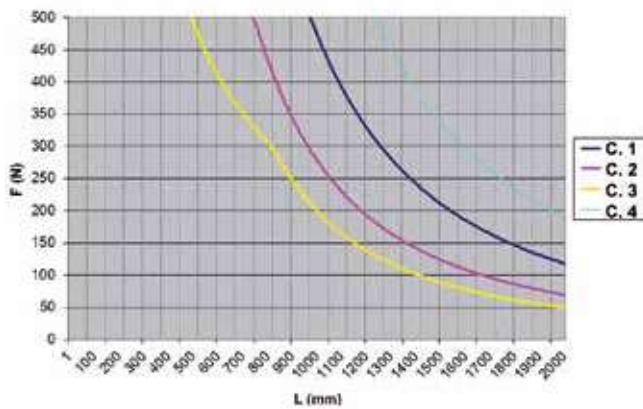

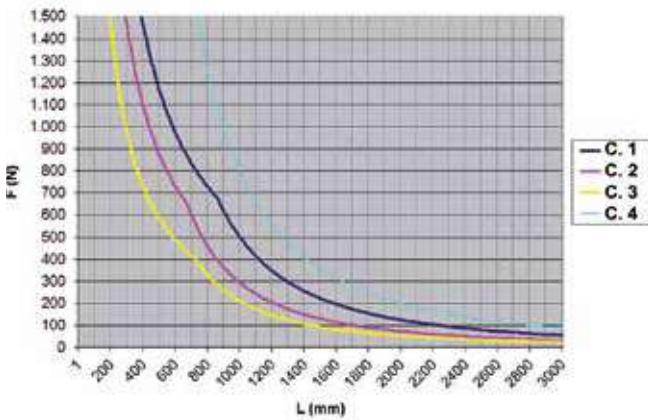

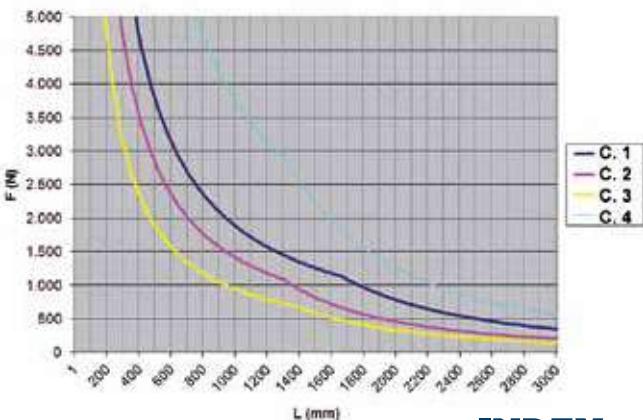

Three punctual loads in L/4

CASE 4

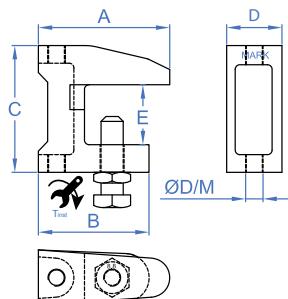

Uniform load

INDEX®
A PERFECT FIXING

SALES CONDITIONS

SHIPPING

Shipping cost will be paid when the value of the order exceed the amount agree for free transport as sale condition between the manager of the country and the client. This conditions are considered using our usual transport agency.

When the trasnport cost will be paid for the client and the client dont express directly his intention to use another type of treasnport or company, the order will be shipped with our regular agency transport.

At the moment of received the order, please verify the condition of the order, if there is some damage in the order, please proceed to state this one into the receipt of the agency transport and comunicate as soon as possible this claim or objection to your contact person in INDEX.

For orders which the total amount will be less than 250€, should be charge 30 € as handling cost.

PAYMENT CONDITIONS

No replacement costs admitted.

60-day direct money order, net payment.

If bills of exchange are not domiciled, under no circumstances shall INDEX A Perfect Fixing be responsible for possible return expenses due to unpaid drafts.

Payment documents must be sent within a maximum of 30 days after invoice date.

Payment documents which do not respect payments due date shown on our invoice shall incur a 1% monthly deferral cost.

Our computer system automatically retains any orders in the event of arrears or delay in the receipt of payment documents.

DELIVERY TIME

Unless expressly agreed with our Headquarters, the delivery times indicated by our representatives are to be used as a guide.

Delay in delivery times or deadlines shall not lead to penalties.

AUGUST AND DECEMBER

Due dates that are handled in these months shall not have charges or credits.

If payment due is fractioned at 50% between the previous and following month, no charges or credits are to be applied.

If payment due is brought forward to the previous month, a 1% discount for advance payment shall be applied to the invoice.

If payment due is deferred to the following month, a 1% charge shall be applied to the invoice for financial costs.

MATERIAL RETURNS

Material returns shall not be accepted 15 days after delivery date.

If the return is due to reasons not attributable to INDEX A Perfect Fixing, the customer shall return the goods with prepaid shipping. In addition, the client is to be charged any costs arising by way of repackaging, as well as those incurred for initial shipment transportation. The surcharge shall total approximately 20% of the value of the goods.

The value of the returned goods or the payment done, shall be deducted from the origin bill and costumer shall be notified.

Material returned with unpaid shipping costs shall not be accepted unless it comes through out usual transport agencies.

The Courts and Tribunals of the city of Logroño shall be considered the competent authority for any questions arising from sales performed by INDEX A Perfect Fixing (Técnicas Expansivas, S.L.). Prices do not include VAT. INDEX A Perfect Fixing reserves the right to change prices, packaging or articles in stock without prior notice.

INDEX A Perfect Fixing, due to production requirements, reserves the right to modify product design or characteristics without prior notice. Images in this catalogue are informative illustrations with no contractual obligation and may not coincide with the original model.
